Doyle, Tom, Tammy, Heidi & Alexis,

We are writing to address your sanctimonious and shocking letter to Eric and Marsha Fendler. In the letter you write, "Who appointed you as an elder and put a meeting in your home? Was it the ministry? The ministry was established from heaven even before the fellowship was, and it is something we cannot change."

Following is a list of perpetrators in the US and Canada that were appointed as elders and/or given a meeting in their home. **These individuals were known to the workers to have serious allegations or criminal convictions at the time they were made elders, or meetings were left in their homes**; some of the perpetrators even admitted they had abused children. This is by no means a comprehensive list.

Most of the perpetrators on this list allegedly or admittedly sexually violated CHILDREN. The least among you. How is appointing an alleged, convicted or admitted perpetrator a show of care for those entrusted to you?

We have serious concerns and doubts about your ministry and the spirit that is leading you to appoint elders. Some of the alleged and convicted perpetrators on the list are currently elders.

The ministry which you claim was appointed by God has been responsible for perpetrators appointing fellow alleged, convicted and/or admitted perpetrators as elders. You have promoted and edified perpetrators and pedophiles. Thus the call for repentance and change. Your avoidance and lack of accountability show the magnitude of your pathology.
