UPDATE: Robert Corfield

Information has been published stating that Robert Corfield (admitted pedophile) has been holding gospel meetings in the Great Falls, MT area.

These gatherings have taken place at a care home, where a former worker lives. It would appear that these are not open-invitation events, as church members in the field have been unaware that they are occurring, and we do not have any information indicating that there are children in attendance. We do not know how many of these meetings have occurred, how many people attend, or if Robert is preaching in a "worker" capacity.

While accuracy regarding these details is very important, any participation by Robert in any church event is directly harmful and should not be tolerated by members or the ministry.

We have reached out to church leadership regarding this, and hope to receive some kind of clarification or further detail. We will edit this post to provide relevant updates as we learn more.

If you have reliable information you'd like to share, please feel free to reach out.
