

ABE ABEs story of leaving the work

Waking up this morning I edited a comment about how ex-Workers are treated upon leaving the Work. This is what is on my mind this morning!

I believe each case is handled according to the Overseer's personal desires. Usually an Overseer dictates how to treat certain Worker who leaves the Work to get married or to care for health or for ailing parents or relatives.

Most of the Workers leaving the Work are listed on the annual Worker's List as caring for health or caring for a parent. But if the Overseer decides to excommunicate someone, that Worker is left to rot in the desert. Unless relatives step up to support the unwanted Worker. That name disappears from the Workers list forever. No explanation. The family and friends might be instructed on how to handle an excommunicated Friend, Elder or Worker. And if a Victim happens to know too much about Perps, about an abusive Worker or God forbid about a Perp Overseer, that ex-Worker might end up completely isolated and even threatened and could end up in a very dangerous situation.

To be excommunicated as a Worker could be synonym to murder! A Worker without destroyed health, without a home and supporting relatives could end up running like an animal kicked out of the pack. Left to roam homeless and destitute into the cold wide World or the hot wilderness.

After being dismissed from the Work and fellowship, I had to flee US to seek protection and healthcare elsewhere. Defamation of character and even threats followed me even when after I chose to live in exile. For about 10 years I was seeking safety and recovery outside the country.

And ten years later returning to US to care for my destroyed health, I start facing new threats from Friends and their ex-2x2 relatives for offering them thank you gifts for initially showing kindness upon my return.

The recent behaviour of such Friends and ex-2x2s shows how the mind controlling power of certain Overseers could reach long distance, even across state or country borders. It seems that when it comes to doing evil or harming someone they can be united.

For F&Ws under such mind controll it's better to pray: "Lord forgive them for they don't know what they are doing!" But how about the Overseers & Workers preaching love and inflicting harm? How shall we handle them? The sound advice given about such abusive Hypocrites is: "Better stay away from them. For they are blind leaders leading the blind and taking advantage of their innocent subjects! For them it would be better to have a millstone around their necks and be thrown into the see.!" Amen
