@Corey...

Think of all the people that RH told that the Bainbridges were just causing trouble... 🙄

And then think of all the other workers that fell into line, repeating the same lies that RH, BB, DS, JG, DM, CO.... and the list goes on and on and on... all covering for MC knowing that not only was she capable of those things, but that she was actually guilty of doing them in the past...

I'm completely disgusted with so many of the friends in the east!...
