This email contains discussion of CSA allegations.

To the Fargo area friends and to whom it may concern:

In our interest in clear communication and safer fellowship, we need to inform you that Brad Holman will be with family in the Fargo area and working.

There are multiple allegations of child sexual abuse (CSA) against Brad Holman and he is no longer in this ministry. Brad worked in Minnesota, Colorado, Oklahoma, Missouri and Arkansas. We have asked Brad to not attend any meetings while here in the Dakotas. We have spoken with those who have been handling these allegations, and this decision is in keeping with their policy and the seriousness of these allegations. Brad has not been charged with any criminal activity by legal authorities, as allegations have been made by now adult women. We do not have legal rights to restrict any of his activities other than meeting attendance.

We acknowledge this is a time with many difficult situations to navigate. We continue in our purpose that the fellowship would be a safe community for all.
