

Constance Betty Borys thankfulness for being rescued

My dear Leanne thank you for your post. Yes ... here we are and there they are....not

My dear Leanne thank you for your post. Yes ... here we are and there they are....not caring... still enabling... still covering up.

I realize you have written this to your lovely friends who have decided to continue attending meetings. I understand that in this crisis....we are all at different stages of acceptance... denial...staying ... leaving...not talking ... talkingconsidering leaving...or just left...and lots of tears.

(yes Mike there is a crisis)

Our plans our hopes and expectations ? ? ? you ask...

we PLANto keep on keeping on

Our HOPEto finish with honour the race we began 60 years ago.

Our EXPECTATIONSthat we will learn much more of God's will for our lives in the time we have left...and show kindness to those who don't agree with us.

Our very good friends stepped away just weeks before us. But kept their home open for fellowship here in Winnipeg.

One door closes ... another one opens. The only thing that has changed since we stepped away?

Our meeting is now unsanctioned by the workers.... and now we are FREE . Man can not give us salvation... it is a gift from God. We continue to have sweet fellowship with no distractions... Now we can love our neighbour as ourselves.... and there is hope for everyone. We have traded bondage for freedom liberty and peace and above all the TRUTH according to Jesus.

Our love and belief in God and his son JESUS is greater than ever before. This should unite us regardless of our differences

Unfortunately the F O R M gets in the way.
