After helping to run CCF since June 4, we are aware that child sexual assault and sexual assault is rampant throughout the world today in this church. This 60 Minutes Australia episode came out in 2019 about the church protecting pedophiles and the corruption of senior ministry leadership. We sit here today in 2023 and many do not know this video exists. We must continue to fight to rid this church of abuse and root out the corruption that exists throughout the church hierarchy.
