

# Lisa Bainbridge Shiell speaks out about the MC issue and its consequences in Atlantic Canada

Berwick, Nova Scotia

This. This is what we have been waiting for here in Atlantic Canada.

10/8- Marion Crawford is a current worker in Calgary field of Alberta. She has been named in multiple sexual assault allegations spanning multiple decades. Her allegations were known in 1995 when she was removed from the work in Saskatchewan under Jack Price. They were known by Willis Propp when he took her onto his staff in 1996. They are known by current Alberta overseer Michael Hassett.

- This. This is why we are not going to meeting.
- Don't ever say the people in Atlantic Canada are not involved or standing up for what is right.
- My parents have lost their meeting. My brother and his wife as well. They have lost their home and convention because of this.
- MB is not a liar. She is not deceitful or dishonest. She and her family have been treated with utter contempt and cruelty.

So glad to have this out in the open
