## Lori Kostenuk Babylon is falling

## Babylon is falling.... now what?

We are living in unprecedented times. God is pulling back the veil to show us what was previously hidden. Why now? Because he feels we are now ready to see and come into a greater spiritual awareness. Religious, political, and financial structures are falling all around us. We will either observe and rejoice as an awakened soul, or we will get caught up in the chaos and despair. We are being called to rise up and be a witness to God's glorious cleansing of the earth and restoring the child that was set in the midst. It is not about sitting back and 'letting God take care of it'. He always has and always will accomplish his work through people who are willing to say 'Use me, Lord, use even me'. I urge us all to lift up our eyes, know the signs of the times, be open to whatever our individual role will fall into, so we can be used in these biblical times. Babylon is falling ... now what?
