

# Message from Rob Newman, California overseer, re removal of Kingsley Stone – May 2023

The only credible information I had on Kingsley at the time we took him away and before he spoke and until last night, was that five sister workers at Mountain Ranch felt extremely uncomfortable with him. About the time we took him away I was made aware by one of the five sisters that she heard from a source that could be questionable that he had been turned into a hotline.

I googled his name at that time and nothing came up. We told his overseers in South Africa what we had done and they were in absolute disbelief. When we older brothers heard last night what Kingsley said to the 15 year old girl after the Sunday morning [meeting] we were absolutely shocked.

We are doing everything in our power to get him out of the country as soon as possible. That involves interception of his passport from the Canadian embassy. We will put him on a plane as fast as we can. He is awaiting his passport in the LA area and in a home of a single man who knows what we knew before 8:00 last night. I will update our man asap.

Kingsley will NOT BE IN ANY MORE MEETINGS between now and plane time.

With great sadness, and deep apologies.

Your brother, Rob

---

WINGS Note:

Kingsley Stone is a South African worker who had been listed as a speaker at the Mountain Ranch #1, CA 2023 convention.

After Kingsley Stone was removed from Mountain Ranch convention last week, Jonathan Wright took him to Sunday morning meeting in the local field, and the people he met with were not notified why he was meeting with them and not at convention.

Kingsley openly “admired” the 15 year old granddaughter of the man whose home he was in on Sunday.

Jonathan Wright said Kingsley wasn't at convention because of Passport issues. And then he took him to stay at an elder's home who has six granddaughters.
