

Michelle Woods regarding the fact that some friends are not willing to host workers in their homes alternativ hotels or AirBnbs

Chiming in from BC. I wonder if anyone here saw the comments about workers staying in hotels at special mtgs. Someone in Ontario was asked what they thought would work this year and that was the recommendation. I have no idea if it will be implemented or not. We will not be hosting workers. There are plenty of Airbnbs for them to stay at in different areas of each city. Of course this gives them more freedom to do what they want but at least they won't have access to children.

Or adults - SA with adults is a real thing and not something I will risk.
