

Good Evening Jerome,

We received the revised visiting worker's list today and we are disappointed to see that Barry Barkley and Ray Hoffman were invited as visiting workers. The evidence of coverups of Child Sexual Abuse and Sexual Abuse that they were both directly a part of is overwhelming. Both of their roles in the Leslie White coverup are disgraceful. Please see the timeline below for more specifics of their actions in other cases.

It's hard to grasp that they would not be welcome at other conventions due to these concerns but then invited to our states. I would hope that the unity of spirit would overrule and that the same outstretched hand of concern would be extended to those in your field.

We are left feeling backed into a corner, with our options being:

1. Not show up at conventions and support those that have hurt our brothers and sisters in this way. OR
2. Get up and walk out when they are to speak.

Either way, the trust in the ministry is not being rebuilt when you are accepting and supporting those that have broken and hurt our family. We are a family and the heartache is heavy.

I am asking you to reconsider your invitation to Ray Hoffman and Barry Barkley at our conventions.
