

Patricia Anne Smith describing sexual abuse by a sister worker

TRIGGER WARNING. TRIGGER WARNING

Admin probably won't post this but I will give it a shot

So I am going to out a sister worker in Alberta !!

It not a new one , it has happened for years

If you ever run into Marion Crawford run as fast as you can ladies .

She bought her way back into the work .

Marion is a female sex abuser . She abused 6 of her companions , all women.

None of those 6 are workers anymore . They left because they were not listened to by overseer .

She was in Saskatchewan at that time . She was finally was put out however money talks . When her wealthy parents passed away she turned everything over to the overseers . Big 🇺🇸

Then she was moved to Alberta as A WORKER AGAIN ! I had an encounter with her while taking my mom to convention .

My dear mom had Parkinson's and was sleeping in elderly ladies rooms . I was in there as well My mom needed some extra blankets so I asked Marion . She took me to one of the storage units and grabbed some more blankets . She also grabbed me and kissed me !!! At which point I said , let's chat about all the sexual abuse that is rampant in the work . Her answer , oh just let it go , to which I replied don't ever touch me again because I will hit you and hurt you . Stay on your toes Marion cause this 🤖 doesn't go down with me .

You are not forgiven , I will never forgive you or forget . Watch your back !! Then to my horror she was the worker in my mom's field that year .

If she was around I would glare at her . I was still taking my mom to all meetings , conventions , special meetings at that time .

She was smart enough not to try to engage me in anything after that .

Because she knew I would follow through on my promise . I will not apologize for threatening her , I had every right to fight back if she touched me . She stayed away from me at all times after that !

So beware of Marion Crawford !
